

Continuing Competency Credit Program Deficiency Plan 2019-2021 (AF-28)

CCC Requirement

For the 3-year cycle from Jan 1st, 2019-Dec 31st-2021, Registrants are required to report 45 credits for their primary registration. If you are registered in more than one profession, you must also report a pro-rated 5 credits for this cycle as the new bylaw requirement did not come into effect until part way through the cycle. For new Registrants (i.e., after Jan 1st, 2019) the pro-rated number of credits required is shown in your Registrant Portal.

Please complete the following form, if you do not have sufficient credits reported as of December 31st, 2021. A deficiency plan is required by February 15th, 2022, without penalty. If it is received after February 15th but before March 31st, 2022, you will be required to pay a deficiency plan fee.

All plans must include details on how the deficit will be corrected by March 31st, 2022, which is the last date for registration renewal. If you require additional information, please see the CSHBC website for the [CCC FAQ](#) and [Attaining and Maintaining Practice Competence Standard \(SOP-PROF-02\)](#).

Please complete all sections which apply to you.
